## Overview

This profile presents findings from the WHO pulse survey on continuity of essential health services during the COVID-19 pandemic.

## Background

Region	Population	Income Group	GDP (USD per capita)	Life Expectancy (years)	Population 60 and over (%)
AFR	2,540,905	Upper middle income	\$4,865.6	64.6	5.6%

## Survey participation

Round 1 surveys	Submission Date	Round 3 survey sections	Submission Date	Round 4 survey sections	Submission Date
Essential Health Services	Did not participate	Cross-cutting ontinuity of essential health services module	7-Dec-21	Cross-cutting ontinuity of essential health services module	7-Feb-23
Noncommunicable diseases	Did not participate	Sexual, reproductive, maternal, newborn, child and adolescent health	7-Dec-21	Sexual, reproductive, maternal, newborn, child and adolescent health	7-Feb-23
Mental, neurological, and substance use disorders	30-Jul-20	Nutrition	7-Dec-21	Nutrition	7-Feb-23
		Immunization	7-Dec-21	Immunization	7-Feb-23
		Human immunodeficiency virus and hepatitis	7-Dec-21	Human immunodeficiency virus and hepatitis	7-Feb-23
<b>Round 2 survey sections</b>					
Cross-cutting ontinuity of essential health services module	8-Mar-21	Tuberculosis	7-Dec-21	Tuberculosis	7-Feb-23
Reproductive, maternal, newborn, child and adolescent health and nutrition	8-Mar-21	Malaria	7-Dec-21	Malaria	7-Feb-23
Immunization	8-Mar-21	Neglected tropical diseases	7-Dec-21	Neglected tropical diseases	7-Feb-23
Human immunodeficiency virus and hepatitis	8-Mar-21	Mental health, neurology and substance use disorders	7-Dec-21	Mental health, neurology and substance use disorders	7-Feb-23
Tuberculosis	8-Mar-21	Care for older people	7-Dec-21	Noncommunicable diseases	7-Feb-23
Malaria	8-Mar-21			Care for older people	7-Feb-23
Neglected tropical diseases	18-Mar-21			Future acute respiratory pandemic preparedness	7-Feb-23
Noncommunicable diseases	8-Mar-21				
Mental, neurological, and substance use disorders	8-Mar-21				

## Weekly number of new COVID-19 cases and deaths

	Cases	Deaths
Peak	11,541	515
Peak date	2021-06-20	2021-07-11
Latest	0	0
Proportion	0%	0%

### Summary of disruptions

#### Namibia

	Round 1 (May-Sept 2020)	Round 2 (Jan-March 2021)	Round 3 (Nov-Dec 2021)	Round 4 (Nov 2022-Jan 2023)	Trend over four rounds	Regional comparison (Round 4)	Global comparison (Round 4)
Percentage of essential health services disrupted	78%	17%	48%	1%		Average % of services disrupted	
Number of essential health services disrupted	7 out of 9 services	7 out of 41 services	26 out of 54 services	1 out of 73 services		26%	23%

Denominator excludes services that were not reported on and services for which Not applicable and Do not know responses were submitted

Level of service disruption by service group	Round 1 (May-Sept 2020)	Round 2 (Jan-March 2021)	Round 3 (Nov-Dec 2021)	Round 4 (Nov 2022-Jan 2023)
Primary care	Not applicable	No services disrupted	No services disrupted	No services disrupted
Emergency, critical, and operative care	Not applicable	No services disrupted	No services disrupted	No services disrupted
Rehabilitative and palliative services	Not applicable	No services disrupted	No services disrupted	No services disrupted
Community care	Not included in round 1	Not included in round 2	All services disrupted	No services disrupted
Hospital inpatient services	Not included in round 1	Not included in round 2	No services disrupted	No services disrupted
Appointments with specialists	Not included in round 1	Not included in round 2	Not applicable	No services disrupted
Sexual, reproductive, maternal, newborn, child and adolescent health	Not applicable	No services disrupted	Some services disrupted	No services disrupted
Nutrition	Not applicable	No services disrupted	All services disrupted	No services disrupted
Immunization	Not applicable	All services disrupted	All services disrupted	No services disrupted
Communicable disease	Not applicable	Some services disrupted	Some services disrupted	Some services disrupted
Neglected tropical diseases	Not applicable	Not applicable	All services disrupted	No services disrupted
Mental, neurological, and substance use (MNS) disorders	Some services disrupted	Some services disrupted	Some services disrupted	No services disrupted
Noncommunicable diseases	Not applicable	Some services disrupted	Not included in round 3	No services disrupted
Care for older people	Not included in round 1	Not included in round 2	Some services disrupted	No services disrupted

### Disruptions across service delivery settings and platforms

	Round 1 (May-Sept 2020)	Round 2 (Jan-March 2021)	Round 3 (Nov-Dec 2021)	Round 4 (Nov 2022-Jan 2023)	Regional comparison (Round 4)	Global comparison (Round 4)
Primary care	Not included in round 1	No services disrupted	No services disrupted	No services disrupted		
Routine scheduled visits	Not included in round 1	Less than 5% (including 0%)	Less than 5% (including 0%)	Less than 5% (including 0%)		
Visits for undifferentiated symptoms	Not included in round 1	Less than 5% (including 0%)	Less than 5% (including 0%)	Less than 5% (including 0%)		
Prescription renewals for chronic medications	Not included in round 1	Less than 5% (including 0%)	Less than 5% (including 0%)	Less than 5% (including 0%)		
Emergency, critical and operative care	Round 1 (May-Sept 2020)	Round 2 (Jan-March 2021)	Round 3 (Nov-Dec 2021)	Round 4 (Nov 2022-Jan 2023)		
Ambulance services at the scene	Not included in round 1	Do not know	Less than 5% (including 0%)	Less than 5% (including 0%)		
24-hour emergency unit services	No response	Less than 5% (including 0%)	Less than 5% (including 0%)	Less than 5% (including 0%)		
Elective surgeries	Not included in round 1	Less than 5% (including 0%)	Do not know	Less than 5% (including 0%)		
Emergency surgeries	No response	Less than 5% (including 0%)	Do not know	Less than 5% (including 0%)		
Rehabilitative, palliative and long-term care	Round 1 (May-Sept 2020)	Round 2 (Jan-March 2021)	Round 3 (Nov-Dec 2021)	Round 4 (Nov 2022-Jan 2023)		
Rehabilitation services	No response	Less than 5% (including 0%)	Less than 5% (including 0%)	Less than 5% (including 0%)		
Palliative services	No response	Not applicable	Not applicable	Less than 5% (including 0%)		

Disruptions across service delivery settings and platforms (continued)

	Round 1 (May-Sept 2020)	Round 2 (Jan-March 2021)	Round 3 (Nov-Dec 2021)	Round 4 (Nov 2022-Jan 2023)	Regional comparison (Round 4)	Global comparison (Round 4)
Community care	Not included in round 1	Not included in round 2	All services disrupted	No services disrupted	<div><div></div>More than 50%</div> <div><div></div>26 - 50%</div> <div><div></div>5 - 25%</div>	
					% of countries	
Outreach services	Not included in round 1	Not included in round 2	5-25%	Less than 5% (including 0%)	29% <div><div></div></div>	22% <div><div></div></div>
Health post and home visits by community health workers	Not included in round 1	Not included in round 2	5-25%	Less than 5% (including 0%)	20% <div><div></div></div>	20% <div><div></div></div>
Other	Round 1 (May-Sept 2020)	Round 2 (Jan-March 2021)	Round 3 (Nov-Dec 2021)	Round 4 (Nov 2022-Jan 2023)	Regional comparison (Round 4)	Global comparison (Round 4)
					% of countries	
Hospital inpatient services	Not included in round 1	Not included in round 2	Less than 5% (including 0%)	Less than 5% (including 0%)	18% <div><div></div></div>	18% <div><div></div></div>
Appointments with specialists	Not included in round 1	Not included in round 2	Do not know	Less than 5% (including 0%)	32% <div><div></div></div>	28% <div><div></div></div>
Traditional and/or complementary medicine	Not included in round 1	Not included in round 2	Not included in round 3	Less than 5% (including 0%)	16% <div><div></div></div>	15% <div><div></div></div>
Disruptions to tracer services	Round 1 (May-Sept 2020)	Round 2 (Jan-March 2021)	Round 3 (Nov-Dec 2021)	Round 4 (Nov 2022-Jan 2023)		
Sexual, reproductive, maternal, newborn, child and adolescent health	Not applicable	No services disrupted	Some services disrupted	No services disrupted	<div><div></div>More than 50%</div> <div><div></div>26 - 50%</div> <div><div></div>5 - 25%</div>	
					% of countries	
Family planning and contraception	No response	Less than 5% (including 0%)	Less than 5% (including 0%)	Increase of 5% or more	30% <div><div></div></div>	25% <div><div></div></div>
Safe abortion	Not included in round 1	Not included in round 2	Not applicable	Increase of 5% or more	16% <div><div></div></div>	15% <div><div></div></div>
Post-abortion care services	Not included in round 1	Not included in round 2	5-25%	Not applicable	28% <div><div></div></div>	24% <div><div></div></div>
Fertility care/infertility services	Not included in round 1	Not included in round 2	Not applicable	Not applicable	22% <div><div></div></div>	23% <div><div></div></div>

### Mitigation strategies and recovery measures

Service delivery modifications	Round 1 (May-Sept 2020)	Round 2 (Jan-March 2021)	Round 3 (Nov-Dec 2021)	Round 4 (Nov 2022-Jan 2023)	Regional comparison (Round 4)	Global comparison (Round 4)
% of countries using strategy (with or without integration)						
Expansion of facility hours	Not included in round 1	×	×	Used and integrated into routine service delivery	50%	52%
Provision of home-based care where appropriate	Not included in round 1	×	×	Used but not integrated into routine service delivery	71%	69%
Telemedicine deployment to replace in-person consults	Not included in round 1	×	×	Not used	44%	66%
Use of self-care interventions where appropriate	Not included in round 1	×	✓	Used but not integrated into routine service delivery	74%	65%
Catch-up campaigns for missed appointments	Not included in round 1	×	×	Used but not integrated into routine service delivery	71%	53%
Integration of several services into single visit	Not included in round 1	✓	×	Used but not integrated into routine service delivery	44%	42%
Redirection of patients to alternate care sites/reorientation of referral pathways	No response	×	✓	Used and integrated into routine service delivery	62%	58%
% of countries using strategy (with or without integration)						
<b>Health worker capacities and training</b>						
Redistribution of health worker tasks and optimization of roles	No response	×	×	Not used	65%	72%
Rapid training mechanisms and job aids for key capacities and newly distributed tasks and roles	Not included in round 1	Not included in round 2	×	Used and integrated into routine service delivery	76%	80%
Recruitment of additional staff	No response	✓	✓	Used and integrated into routine service delivery	74%	71%
Provision of mental health care and psychosocial support to health workers	Not included in round 1	Not included in round 2	×	Used but not integrated into routine service delivery	74%	63%
Establishment of pathways for accelerated training and early certification of medical, nursing and other key staff	Not included in round 1	Not included in round 2	×	Not used	32%	40%
Paid sick leave, overtime pay, and/or hazard pay	Not included in round 1	Not included in round 2	×	Not used	47%	55%
% of countries using strategy (with or without integration)						
<b>Access to medicines and health products</b>						
Novel approaches to renewing prescriptions and dispensing medications	Not included in round 1	Not included in round 2	✓	Not used	50%	56%
Adaption of supply chain logistics and management processes	No response	✓	×	Not used	65%	71%
Procurement of surge commodities (e.g. PPE, oxygen)	Not included in round 1	Not included in round 2	×	Used and integrated into routine service delivery	79%	75%
% of countries using strategy (with or without integration)						
<b>Community engagement and risk communication strategies</b>						
Community communications	No response	✓	✓	Used and integrated into routine service delivery	88%	89%
Use of proactive governmental strategies to reach vulnerable groups	Not included in round 1	✓	×	Used and integrated into routine service delivery	44%	63%
Use of existing networks or organizations (e.g. NGOs) to reach vulnerable groups	Not included in round 1	✓	×	Used and integrated into routine service delivery	82%	77%
% of countries using strategy (with or without integration)						
<b>Health financing strategies</b>						
Removal of user fees or provision of subsidies for fees at point of use	No response	×	No response	Not used	32%	41%
Provision of cash transfers for vulnerable populations to access care	Not included in round 1	Not included in round 2	No response	Not used	38%	29%
Agreements with private health facilities to deliver essential health services supported through public funds	Not included in round 1	Not included in round 2	No response	Used and integrated into routine service delivery	53%	48%
% of countries using strategy (with or without integration)						
<b>Systematic use of quality improvement approaches</b>						
Improving patient flow in health facilities	Not included in round 1	Not included in round 2	Not included in round 3	Used and integrated into routine service delivery	62%	68%
Improving the quality of care in essential health services delivered to patients	Not included in round 1	Not included in round 2	Not included in round 3	Used and integrated into routine service delivery	76%	64%
Providing training and supportive supervision of the workforce in quality improvement	Not included in round 1	Not included in round 2	Not included in round 3	Used and integrated into routine service delivery	85%	75%
Application of improvement cycles to find solutions for priority issues and challenges in the delivery of clinical care	Not included in round 1	Not included in round 2	Not included in round 3	Not used	47%	48%

Policies, planning and investments

Policies and plans

	Round 1 (May-Sept 2020)	Round 2 (Jan-March 2021)	Round 3 (Nov-Dec 2021)	Round 4 (Nov 2022-Jan 2023)	Regional comparison (Round 4)	Global comparison (Round 4)
					% of countries responding yes	
Government has defined EHS to be maintained during COVID-19	No response	Yes	Yes, developed	Yes, developed	50%	59%
Country developed or revised a health system recovery plan to strengthen health service resilience and preparedness for future public health emergencies	Not included in round 1	Not included in round 2	No	Yes	39%	44%
Plan has been budgeted	Not included in round 1	Not included in round 2	Not included in round 3	Yes	92%	92%
Implementation of plan has started	Not included in round 1	Not included in round 2	Not included in round 3	Yes	83%	95%
Implentation hasn't started because:						
Focus is still currently on pandemic response	Not included in round 1	Not included in round 2	Not included in round 3	No response	Sample size too small to display.	Sample size too small to display

In-depth profile: Sexual, reproductive, maternal, newborn, child and adolescent health

Mitigation strategies and recovery measures for sexual and reproductive health services

Communication and information	Round 1 (May-Sept 2020)	Round 2 (Jan-March 2021)	Round 3 (Nov-Dec 2021)	Round 4 (Nov 2022-Jan 2023)	Regional comparison (Round 4)	Global comparison (Round 4)
% of countries using strategy (with or without integration)						
Informing the community where, when and how to access SRH services	Not included in round 1	Not included in round 2	✓	Not used	76%	73%
Providing information to public about accurate and up-to-date educational materials on COVID-19 and SRH	Not included in round 1	Not included in round 2	✓	Not used	94%	80%
Informing and alerting all service providers about the heightened risk of domestic violence	Not included in round 1	Not included in round 2	✓	Not used	76%	68%
Access						
% of countries using strategy (with or without integration)						
Increasing availability of contraceptive methods and condoms that do not require direct supervision of health workers	Not included in round 1	Not included in round 2	×	Not used	79%	61%
Enhancing identification and services for gender-based violence against women survivors	Not included in round 1	Not included in round 2	×	Used but integration into routine service delivery not known	73%	59%
Alternative or adaptive measures						
% of countries using strategy (with or without integration)						
Relaxing requirements for prescriptions of SRH commodities	Not included in round 1	Not included in round 2	×	Not used	42%	33%
Offering noninvasive medical methods for managing safe abortion	Not included in round 1	Not included in round 2	✓	Not used	36%	28%
Waiving restrictions to accessing SRH services	Not included in round 1	Not included in round 2	×	Not used	30%	28%
Providing multi-month supplies of SRH commodities	Not included in round 1	Not included in round 2	×	Used but integration into routine service delivery not known	88%	62%
Using hotlines and/or telemedicine to minimize facility visits and provider-client contacts	Not included in round 1	Not included in round 2	No response	Not used	56%	56%
Adjusting forecasting for SRH commodities and supplies	Not included in round 1	Not included in round 2	×	Used but integration into routine service delivery not known	85%	59%
Reducing the cost of SRH services	Not included in round 1	Not included in round 2	×	Used but integration into routine service delivery not known	52%	39%
Implement task shifting/sharing for essential SRH services	Not included in round 1	Not included in round 2	×	Not used	76%	45%

Mitigation strategies and recovery measures for maternal and newborn health services

Communication and information					% of countries using strategy (with or without integration)	
Informing the community where, when and how to access MNH services	Not included in round 1	Not included in round 2	✓	Used but integration into routine service delivery not known	88%	73%
Promoting childbirth in health facilities irrespective of COVID-19	Not included in round 1	Not included in round 2	✓	Used but integration into routine service delivery not known	94%	80%
Informing families and caregivers on how to cope with stress and sustain a nurturing environment at home	Not included in round 1	Not included in round 2	✓	Used but integration into routine service delivery not known	76%	71%
Informing MNH CHWs on IPC measures	Not included in round 1	Not included in round 2	✓	Used but integration into routine service delivery not known	91%	77%
Access						
Scheduling of ANC visits in advance	Not included in round 1	Not included in round 2	×	Used but integration into routine service delivery not known	62%	66%
Scheduling of PNC visits in advance	Not included in round 1	Not included in round 2	×	Used but integration into routine service delivery not known	56%	65%
Modifying (temporarily) MNH referral system	Not included in round 1	Not included in round 2	×	Used but integration into routine service delivery not known	71%	59%
Alternative or adaptive measures	Round 1 (May-Sept 2020)	Round 2 (Jan-March 2021)	Round 3 (Nov-Dec 2021)	Round 4 (Nov 2022-Jan 2023)	Regional comparison (Round 4)	Global comparison (Round 4)
% of countries using strategy (with or without integration)						
Offering multi-month prescriptions, micronutrient supplements, etc. during ANC or PNC	Not included in round 1	Not included in round 2	✓	Used but integration into routine service delivery not known	62%	56%
Early discharge after normal delivery	Not included in round 1	Not included in round 2	No response	Not used	59%	56%
Continuity of labour companion	Not included in round 1	Not included in round 2	✓	Used but integration into routine service delivery not known	62%	49%
Enhanced maternal mental health screening and counselling in maternal health services	Not included in round 1	Not included in round 2	No response	Not used	47%	42%
Using digital platforms for ANC or PNC counseling and screening to minimize facility visits	Not included in round 1	Not included in round 2	No response	Not used	56%	56%

In-depth profile: Sexual, reproductive, maternal, newborn, child and adolescent health, continued

Mitigation strategies and recovery measures for child and adolescent health services					% of countries using strategy (with or without integration)	
Communication and information	Round 1 (May-Sept 2020)	Round 2 (Jan-March 2021)	Round 3 (Nov-Dec 2021)	Round 4 (Nov 2022-Jan 2023)	Regional comparison (Round 4)	Global comparison (Round 4)
Informing the community where, when and how to access sick and well child services	Not included in round 1	Not included in round 2	✓	Used but integration into routine service delivery not known	94%	85%
Enhancing information to caregivers on child care	Not included in round 1	Not included in round 2	✓	Used but integration into routine service delivery not known	85%	76%
Providing information on how to manage stress and sustain nurturing care in households during COVID-19	Not included in round 1	Not included in round 2	×	Used but integration into routine service delivery not known	64%	64%
Informing adolescents where and how to access health services	Not included in round 1	Not included in round 2	✓	Used but integration into routine service delivery not known	79%	68%
Informing adolescents where and how to get support and care in case of violence	Not included in round 1	Not included in round 2	✓	Used but integration into routine service delivery not known	64%	59%
Informing health workers about the heightened risk to children and adolescents of violence, including sexual violence	Not included in round 1	Not included in round 2	✓	Not used	67%	64%
Access						
Enhancing provision of mental health and psychosocial support to caregivers of children and adolescents	Not included in round 1	Not included in round 2	✓	Not used	45%	50%
Scheduling visits for child and/or adolescent services in advance	Not included in round 1	Not included in round 2	×	Not used	48%	52%
Enhance integrated outreach for delivery of vaccinations, growth monitoring, preventive and sick child services	Not included in round 1	Not included in round 2	✓	Not used	73%	64%
Offering multi-month prescriptions for children and adolescents with conditions that require chronic care	Not included in round 1	Not included in round 2	×	Not used	55%	48%
Alternative or adaptive measures						
Using digital platforms for counselling, screening and follow-up after illness on matters related to child health	Not included in round 1	Not included in round 2	×	Not used	42%	49%
Establishing hotlines and/or telemedicine for individual counselling of adolescents	Not included in round 1	Not included in round 2	×	Not used	58%	52%
Engaging community groups and youth networks to extend the provision of health information and services to adolescents	Not included in round 1	Not included in round 2	✓	Used but integration into routine service delivery not known	85%	64%

In-depth profile: Nutrition services

Mitigation strategies and recovery measures for nutrition services					% of countries using strategy (with or without integration)	
Alternative or adaptive measures	Round 1 (May-Sept 2020)	Round 2 (Jan-March 2021)	Round 3 (Nov-Dec 2021)	Round 4 (Nov 2022-Jan 2023)	Regional comparison (Round 4)	Global comparison (Round 4)
Providing/prescribing nutrition drugs and supplies for multi-month	Not included in round 1	Not included in round 2		Used and integrated into routine service delivery	50%	54%
Making use of alternative delivery channels for nutrition services	Not included in round 1	Not included in round 2	✓	Used and integrated into routine service delivery	74%	73%
Reducing the frequency of routine nutrition services, including screening for severe wasting	Not included in round 1	Not included in round 2	✓	Used but not integrated into routine service delivery	59%	40%
Bundling nutrition services with other nutrition or health services	Not included in round 1	Not included in round 2	×	Used and integrated into routine service delivery	65%	51%
Prioritizing key nutrition interventions	Not included in round 1	Not included in round 2	✓	Used but not integrated into routine service delivery	53%	58%
Task shifting for essential nutrition services	Not included in round 1	Not included in round 2	×	Used and integrated into routine service delivery	59%	46%
Postponing of some nutrition services	Not included in round 1	Not included in round 2	✓	Not used	35%	44%

In-depth profile: Care for older people

Mitigation strategies and recovery measures for care for older people					% of countries using strategy (with or without integration)	
Communication and information	Round 1 (May-Sept 2020)	Round 2 (Jan-March 2021)	Round 3 (Nov-Dec 2021)	Round 4 (Nov 2022-Jan 2023)	Regional comparison (Round 4)	Global comparison (Round 4)
Inform older people, their households and caregivers, regarding where, when and how to access health and LTC services	Not included in round 1	Not included in round 2	✓	Used but integration into routine service delivery not known	62%	70%
Inform older people, their households and caregivers on IPC measures	Not included in round 1	Not included in round 2	×	Used but integration into routine service delivery not known	86%	86%
Inform older people, their households and caregivers on the importance of promoting physical and mental health	Not included in round 1	Not included in round 2	×	Used but integration into routine service delivery not known	72%	80%
Inform older people, their households and their caregivers, on where and how to report and get help in the case of elder abuse	Not included in round 1	Not included in round 2	✓	Used but integration into routine service delivery not known	38%	46%
Inform health workers about the heightened risk of elder abuse	Not included in round 1	Not included in round 2	×	Used but integration into routine service delivery not known	41%	46%
Ensure accessible information and different communication strategies for older people with impairments	Not included in round 1	Not included in round 2	×	Used but integration into routine service delivery not known	34%	50%
Establish hotlines for older people and care givers to provide targeted information for older people	Not included in round 1	Not included in round 2	×	Used but integration into routine service delivery not known	41%	47%
Provide accurate accessible information of COVID-19 vaccines and access to COVID-19 vaccines according to national vaccine policies	Not included in round 1	Not included in round 2	✓	Used but integration into routine service delivery not known	86%	88%
Access						
					% of countries using strategy (with or without integration)	
Use telemedicine and/or home outreach proactively to minimize health facility visits and schedule visits in advance	Not included in round 1	Not included in round 2	×	Not used	41%	65%
Offer multi-month prescriptions for older adults who have underlying health conditions	Not included in round 1	Not included in round 2	✓	Not used	79%	82%
Establish mechanisms for medication delivery for older adults who have underlying health conditions	Not included in round 1	Not included in round 2	×	Not used	34%	61%
Facilitate access to rehabilitation services	Not included in round 1	Not included in round 2	✓	Not used	24%	40%
Alternative or adaptive measures						
					% of countries using strategy (with or without integration)	
Engaging community groups and networks to extend the provision of health information and services to older people	Not included in round 1	Not included in round 2	✓	Used but integration into routine service delivery not known	66%	63%
Introduce (if doesn't exist) psychosocial support for older people, for those socially isolated and with grief and loss	Not included in round 1	Not included in round 2	✓	Used but integration into routine service delivery not known	48%	56%
For older people who are care dependent, develop an alternative plan in case the primary caregiver is unavailable, and identify an alternative caregiver and/or alternative facility	Not included in round 1	Not included in round 2	×	Used but integration into routine service delivery not known	28%	37%
Provide education and training for caregivers at home and long-term care facilities on IPC measures and how to continue providing care safely	Not included in round 1	Not included in round 2	×	Used but integration into routine service delivery not known	48%	57%
Establish and enhance the mechanism for relieving the burden on caregivers, including providing psychological support using digital platforms and respite care	Not included in round 1	Not included in round 2	×	Used but integration into routine service delivery not known	28%	41%

In-depth profile: Immunization

During the previous 6 months, which of the following routine immunization services have been *disrupted* due to COVID-19 vaccination?

Facility-based immunization services for:	Round 2 (Jan-March 2021)	Round 3 (Nov-Dec 2021)	Round 4 (Nov 2022-Jan 2023)	Regional comparison (Round 4)	Global comparison (Round 4)
				% of countries responding yes	
Infants/young children	No response	Yes	No	24%	14%
School-aged children and adolescents	No response	No	No	15%	11%
Pregnant women	No response	Yes	No	24%	11%
Adults	No response	No	No	12%	8%
Routine outreach immunization services	No response	No	No	36%	21%

During the previous 6 months, which of the following routine immunization services have been *improved* due to COVID-19 vaccination?

Facility-based immunization services for:	Round 2 (Jan-March 2021)	Round 3 (Nov-Dec 2021)	Round 4 (Nov 2022-Jan 2023)	Regional comparison (Round 4)	Global comparison (Round 4)
				% of countries responding yes	
Infants/young children	Not included in round 2	Not included in round 3	Yes	28%	24%
School-aged children and adolescents	Not included in round 2	Not included in round 3	Yes	16%	19%
Pregnant women	Not included in round 2	Not included in round 3	Yes	28%	25%
Adults	Not included in round 2	Not included in round 3	Do not know	17%	24%
Routine outreach immunization services	Not included in round 2	Not included in round 3	Yes	31%	31%

Has the increased demand for vaccination resources had a negative impact on routine immunization services?

	Round 2 (Jan-March 2021)	Round 3 (Nov-Dec 2021)	Round 4 (Nov 2022-Jan 2023)	Regional comparison (Round 4)	Global comparison (Round 4)
				% of countries responding yes	
Human resources	No response	Yes	Not applicable	89%	87%
Needles or syringes	No response	No	Not applicable	33%	20%
Safety boxed to dispose used syringes/needles	No response	No	Not applicable	33%	20%
Cold chain equipment	No response	No	Not applicable	63%	48%
Final disposal of injection wastage	No response	No	Not applicable	52%	42%

	Round 3 (Nov-Dec 2021)	Round 4 (Nov 2022-Jan 2023)
Disruption to demand for routine immunization services as a results of COVID-19 and associated epidemic prevention measures:	Disruptions to demand for immunization, and more disruptions than in Jan-March 2021	No disruptions: demand for immunization continues as before the pandemic
Has the country been able to measure the result of catch-up activities?	Not included in round 3	Yes, we are able to have an estimate of overall routine vaccination coverage by birth cohort

In-depth profile: Neglected tropical diseases

Infrastructure and activities

Government staff responsible for NTDs have been reassigned/deployed to COVID-19 response

Round 2 (Jan-March 2021)	Round 3 (Nov-Dec 2021)	Round 4 (Nov 2022-Jan 2023)
No	YES - Some staff supporting COVID-19 efforts full time	YES -Some staff partially supporting COVID-19 efforts along with routine NTD activities

Percentage of government funds for NTDs that have been reassigned to non-NTD services due to COVID-19 response efforts

None or not yet	Do not know	Do not know
