

Round 4 tracking continuity of essential health services during the COVID-19 pandemic for: Senegal
Table of contents

	Page Number
Overview and background	1
Summary	2
Disruptions across service delivery settings and platforms	2
Disruptions to tracer services	3
Service backlog trends	5
Supply chain disruptions	5
Intentional modifications to service delivery and essential public health functions	5
Mitigation strategies and recovery measures	6
Policies, planning and investments	7
Delivery of essential COVID-19 tools	10
Priority needs and technical assistance requirements from WHO	10
In-depth profile: Sexual, reproductive, maternal, newborn, child, and adolescent health	11
In-depth profile: Nutrition services	14
In-depth profile: Care for older people	14
In-depth profile: Immunization	15
In-depth profile: Neglected tropical diseases	16
In-depth profile: Noncommunicable diseases	18
In-depth profile: Mental, neurological, and substance use disorders	19
Key informant details	21

Overview

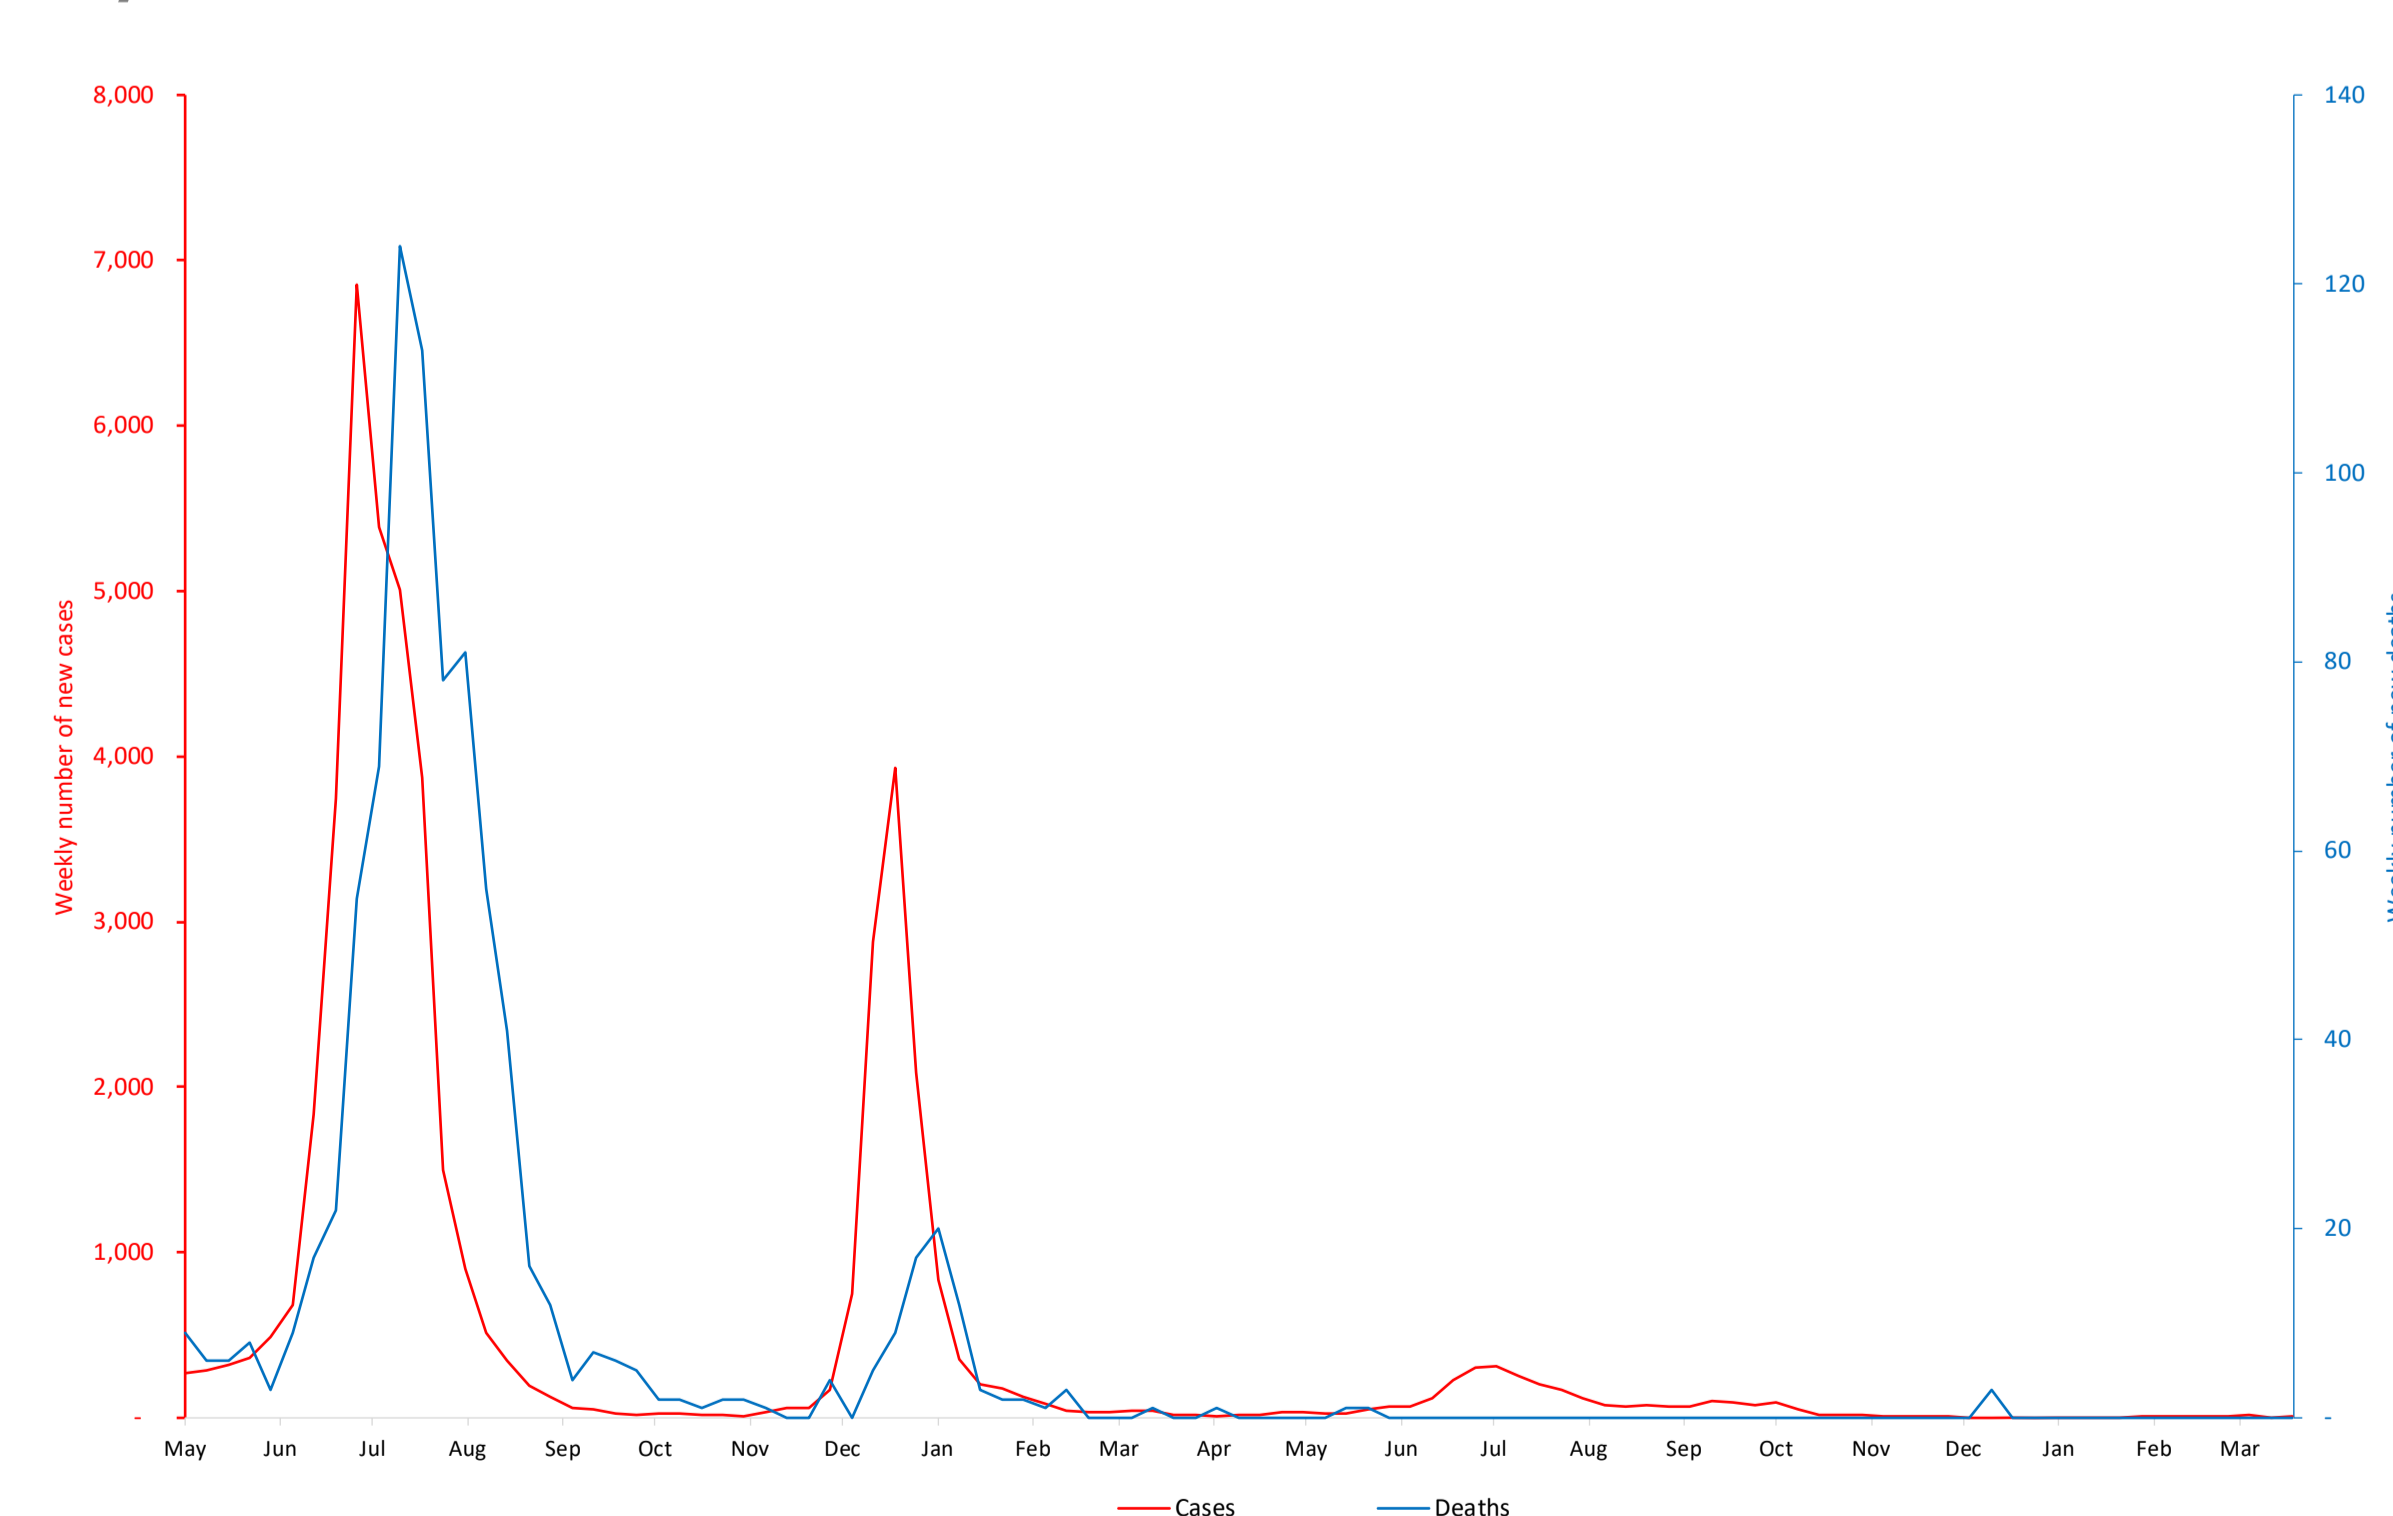

This profile presents findings from the WHO pulse survey on continuity of essential health services during the COVID-19 pandemic.

Background

Region	Population	Income Group	GDP (USD per capita)	Life Expectancy (years)	Population 60 and over (%)
AFR	16,743,927	Lower middle income	\$1,636.9	68.6	4.8%

Survey participation

Round 1 surveys	Submission Date	Round 3 survey sections	Submission Date	Round 4 survey sections	Submission Date
Essential Health Services	Did not participate	Cross-cutting continuity of essential health services module	10-Dec-21	Cross-cutting continuity of essential health services module	27-Dec-22
Noncommunicable diseases	18-May-20	Sexual, reproductive, maternal, newborn, child and adolescent health	24-Nov-21	Sexual, reproductive, maternal, newborn, child and adolescent health	22-Dec-22
Mental, neurological, and substance use disorders	12-Jul-20	Nutrition	24-Nov-21	Nutrition	28-Dec-22
		Immunization	10-Dec-21	Immunization	Did not participate
		Human immunodeficiency virus and hepatitis	26-Nov-21	Human immunodeficiency virus and hepatitis	28-Dec-22
Round 2 survey sections		Tuberculosis	26-Nov-21	Tuberculosis	23-Dec-22
Cross-cutting continuity of essential health services module	13-Mar-21	Malaria	23-Nov-21	Malaria	21-Dec-22
Reproductive, maternal, newborn, child and adolescent health and nutrition	13-Mar-21	Neglected tropical diseases	24-Nov-21	Neglected tropical diseases	21-Dec-22
Immunization	13-Mar-21	Mental health, neurology and substance use disorders	26-Nov-21	Mental health, neurology and substance use disorders	21-Dec-22
Human immunodeficiency virus and hepatitis	13-Mar-21	Care for older people	13-Dec-21	Noncommunicable diseases	21-Dec-22
Tuberculosis	13-Mar-21			Care for older people	24-Dec-22
Malaria	13-Mar-21			Future acute respiratory pandemic preparedness	22-Dec-22
Neglected tropical diseases	13-Mar-21				
Noncommunicable diseases	13-Mar-21				
Mental, neurological, and substance use disorders	13-Mar-21				

Weekly number of new COVID-19 cases and deaths

	Cases	Deaths
Peak	6,853	124
Peak date	2021-07-18	2021-08-01
Latest	11	0
Proportion	0%	0%

Summary of disruptions

Senegal

	Round 1 (May-Sept 2020)	Round 2 (Jan-March 2021)	Round 3 (Nov-Dec 2021)	Round 4 (Nov 2022-Jan 2023)	Trend over four rounds	Regional comparison (Round 4)	Global comparison (Round 4)
Percentage of essential health services disrupted	93%	61%	18%	25%		26%	23%
Number of essential health services disrupted	14 out of 15 services	23 out of 38 services	11 out of 61 services	13 out of 51 services			

Denominator excludes services that were not reported on and services for which Not applicable and Do not know responses were submitted

Level of service disruption by service group	Round 1 (May-Sept 2020)	Round 2 (Jan-March 2021)	Round 3 (Nov-Dec 2021)	Round 4 (Nov 2022-Jan 2023)
Primary care	Not applicable	All services disrupted	No services disrupted	All services disrupted
Emergency, critical, and operative care	Not applicable	Some services disrupted	No services disrupted	Not applicable
Rehabilitative and palliative services	Not applicable	No services disrupted	No services disrupted	Not applicable
Community care	Not included in round 1	Not included in round 2	No services disrupted	No services disrupted
Hospital inpatient services	Not included in round 1	Not included in round 2	No services disrupted	No services disrupted
Appointments with specialists	Not included in round 1	Not included in round 2	No services disrupted	Not applicable
Sexual, reproductive, maternal, newborn, child and adolescent health	Not applicable	All services disrupted	Some services disrupted	All services disrupted
Nutrition	Not applicable	All services disrupted	Some services disrupted	All services disrupted
Immunization	Not applicable	No services disrupted	All services disrupted	Not applicable
Communicable disease	Not applicable	Some services disrupted	Some services disrupted	No services disrupted
Neglected tropical diseases	Not applicable	No services disrupted	All services disrupted	No services disrupted
Mental, neurological, and substance use (MNS) disorders	All services disrupted	Not applicable	No services disrupted	No services disrupted
Noncommunicable diseases	Some services disrupted	All services disrupted	Not included in round 3	No services disrupted
Care for older people	Not included in round 1	Not included in round 2	No services disrupted	No services disrupted

Disruptions across service delivery settings and platforms

	Round 1 (May-Sept 2020)	Round 2 (Jan-March 2021)	Round 3 (Nov-Dec 2021)	Round 4 (Nov 2022-Jan 2023)	Regional comparison (Round 4)	Global comparison (Round 4)
Primary care	Not included in round 1	All services disrupted	No services disrupted	All services disrupted		
Routine scheduled visits	Not included in round 1	5-25%	Less than 5% (including 0%)	5-25%	29%	23%
Visits for undifferentiated symptoms	Not included in round 1	5-25%	Less than 5% (including 0%)	Do not know	20%	20%
Prescription renewals for chronic medications	Not included in round 1	5-25%	Less than 5% (including 0%)	Do not know	23%	20%
Emergency, critical and operative care	Not applicable	Some services disrupted	No services disrupted	Not applicable		
Ambulance services at the scene	Not included in round 1	Less than 5% (including 0%)	Less than 5% (including 0%)	Do not know	19%	13%
24-hour emergency unit services	No response	Less than 5% (including 0%)	Less than 5% (including 0%)	Do not know	23%	16%
Elective surgeries	Not included in round 1	5-25%	Less than 5% (including 0%)	Do not know	19%	24%
Emergency surgeries	No response	5-25%	Less than 5% (including 0%)	Do not know	16%	15%
Rehabilitative, palliative and long-term care	Not applicable	No services disrupted	No services disrupted	Not applicable		
Rehabilitation services	No response	Less than 5% (including 0%)	Less than 5% (including 0%)	Do not know	19%	24%
Palliative services	No response	Less than 5% (including 0%)	Less than 5% (including 0%)	Do not know	21%	21%

Disruptions across service delivery settings and platforms (continued)

	Round 1 (May-Sept 2020)	Round 2 (Jan-March 2021)	Round 3 (Nov-Dec 2021)	Round 4 (Nov 2022-Jan 2023)	Regional comparison (Round 4)	Global comparison (Round 4)
Community care	Not included in round 1	Not included in round 2	No services disrupted	No services disrupted		
Outreach services	Not included in round 1	Not included in round 2	Less than 5% (including 0%)	Do not know	29%	22%
Health post and home visits by community health workers	Not included in round 1	Not included in round 2	Less than 5% (including 0%)	Less than 5% (including 0%)	20%	20%
Other	Round 1 (May-Sept 2020)	Round 2 (Jan-March 2021)	Round 3 (Nov-Dec 2021)	Round 4 (Nov 2022-Jan 2023)	Regional comparison (Round 4)	Global comparison (Round 4)
Hospital inpatient services	Not included in round 1	Not included in round 2	Less than 5% (including 0%)	Less than 5% (including 0%)	18%	18%
Appointments with specialists	Not included in round 1	Not included in round 2	Less than 5% (including 0%)	Do not know	32%	28%
Traditional and/or complementary medicine	Not included in round 1	Not included in round 2	Not included in round 3	Do not know	16%	15%
Disruptions to tracer services	Round 1 (May-Sept 2020)	Round 2 (Jan-March 2021)	Round 3 (Nov-Dec 2021)	Round 4 (Nov 2022-Jan 2023)	Regional comparison (Round 4)	Global comparison (Round 4)
Sexual, reproductive, maternal, newborn, child and adolescent health	Not applicable	All services disrupted	Some services disrupted	All services disrupted		
Family planning and contraception	No response	26-50%	Less than 5% (including 0%)	26-50%	30%	25%
Safe abortion	Not included in round 1	Not included in round 2	Less than 5% (including 0%)	26-50%	16%	15%
Post-abortion care services	Not included in round 1	Not included in round 2	Less than 5% (including 0%)	26-50%	28%	24%
Fertility care/infertility services	Not included in round 1	Not included in round 2	Less than 5% (including 0%)	Do not know	22%	23%
Identification and care for intimate partner violence	Not included in round 1	Not included in round 2	Less than 5% (including 0%)	Do not know	33%	20%
Response to sexual violence (post-rape care)	Not included in round 1	Not included in round 2	Less than 5% (including 0%)	Do not know	23%	13%
Antenatal care	No response	5-25%	Less than 5% (including 0%)	26-50%	31%	23%
Facility-based births	No response	5-25%	Less than 5% (including 0%)	26-50%	24%	18%
Postnatal care for women and newborns	Not included in round 1	5-25%	5-25%	5-25%	31%	21%
Neonatal intensive care unit (NICU) services	Not included in round 1	Not included in round 2	Do not know	Do not know	24%	14%
Sick child services	No response	5-25%	Less than 5% (including 0%)	26-50%	31%	21%
Well-child visits	Not included in round 1	Not included in round 2	Less than 5% (including 0%)	Do not know	30%	24%
Adolescent and youth friendly services	Not included in round 1	Not included in round 2	Less than 5% (including 0%)	26-50%	32%	26%
Nutrition	Not applicable	All services disrupted	Some services disrupted	All services disrupted		
Counselling on infant and young-child feeding	Not included in round 1	Not included in round 2	5-25%	26-50%	45%	31%
Screening for and/or management of moderate and severe wasting	No response	5-25%	Less than 5% (including 0%)	26-50%	44%	28%
Distribution of high-dose vitamin A supplementation	Not included in round 1	Not included in round 2	Less than 5% (including 0%)	26-50%	39%	29%
Growth monitoring and promotion	Not included in round 1	Not included in round 2	Not included in round 3	26-50%	53%	34%
Care for older people	Not applicable	Not applicable	No services disrupted	No services disrupted		
Health and social care services in long-term care facilities	Not included in round 1	Not included in round 2	Less than 5% (including 0%)	Less than 5% (including 0%)	31%	22%
Health and social care services in the community	Not included in round 1	Not included in round 2	Less than 5% (including 0%)	Less than 5% (including 0%)	43%	36%
Provision of integrated health and social care services	Not included in round 1	Not included in round 2	Less than 5% (including 0%)	Less than 5% (including 0%)	42%	31%
Screening and assessment of physical and mental capacities	Not included in round 1	Not included in round 2	Less than 5% (including 0%)	Less than 5% (including 0%)	43%	37%
Immunization	Not applicable	No services disrupted	All services disrupted	Not applicable		
Routine facility-based immunization services	No response	Less than 5% (including 0%)	26-50%	No response	29%	28%
Routine outreach immunization services	No response	Less than 5% (including 0%)	26-50%	No response	50%	35%

Disruptions to tracer services (continued)

Communicable diseases

	Round 1 (May-Sept 2020)	Round 2 (Jan-March 2021)	Round 3 (May-Oct 2021)	Round 4 (Nov 2022-Jan 2023)	Regional comparison (Round 4)	Global comparison (Round 4)
	Not applicable	Some services disrupted	Some services disrupted	No services disrupted		
HIV prevention services	No response	26-50%	5-25%	Less than 5% (including 0%)	29%	24%
HIV testing services	No response	26-50%	Less than 5% (including 0%)	Less than 5% (including 0%)	22%	27%
Continuation of established ARV treatment	No response	26-50%	Less than 5% (including 0%)	Less than 5% (including 0%)	16%	8%
Initiation of new ARV treatment	No response	26-50%	Less than 5% (including 0%)	Increase of 5% or more	19%	12%
Hepatitis B and C diagnosis and treatment	No response	More than 50%	Not applicable	Not included in Round 4	NA	NA
Hepatitis B diagnosis and treatment	Not included in round 1	Not included in round 2	Not included in round 3	Do not know	12%	19%
Hepatitis C diagnosis and cure	Not included in round 1	Not included in round 2	Not included in round 3	Increase of 5% or more	14%	18%
STI treatment services	Not included in round 1	Not included in round 2	Not included in round 3	Increase of 5% or more	21%	22%
Testing of pregnant women for syphilis	Not included in round 1	Not included in round 2	Not included in round 3	Less than 5% (including 0%)	19%	14%
TB case detection and treatment	No response	Do not know	Less than 5% (including 0%)	Less than 5% (including 0%)	37%	37%
Malaria diagnosis and treatment	No response	Less than 5% (including 0%)	Less than 5% (including 0%)	Increase of 5% or more	17%	22%
Malaria tests performed by health worker	Not included in round 1	Not included in round 2	Not included in round 3	Increase of 5% or more	14%	22%
Campaigns for distribution of insecticide treated nets (ITN)	No response	Not applicable	Not applicable	Not applicable	21%	33%
Malaria prevention campaigns: indoor residual spraying (IRS)	No response	Do not know	Less than 5% (including 0%)	Less than 5% (including 0%)	5%	20%
Malaria prevention campaigns: seasonal malaria chemoprevention (SMC)	No response	Less than 5% (including 0%)	Less than 5% (including 0%)	Increase of 5% or more	0%	0%
Malaria surveillance	Not included in round 1	Not included in round 2	Less than 5% (including 0%)	Less than 5% (including 0%)	7%	13%

Neglected tropical diseases

	Round 1 (May-Sept 2020)	Round 2 (Jan-March 2021)	Round 3 (May-Oct 2021)	Round 4 (Nov 2022-Jan 2023)	Regional comparison (Round 4)	Global comparison (Round 4)
	Not applicable	No services disrupted	All services disrupted	No services disrupted		
Diagnosis, treatment and care for NTDs	Not included in round 1	Less than 5% (including 0%)	5-25%	Less than 5% (including 0%)	29%	28%
Large scale preventive chemotherapy campaigns for NTDs	Not included in round 1	Less than 5% (including 0%)	5-25%	Less than 5% (including 0%)	29%	35%
Community awareness and health education campaigns for NTDs	Not included in round 1	Less than 5% (including 0%)	5-25%	Less than 5% (including 0%)	26%	33%
Support for self-care, rehabilitation and psychosocial services for patients with chronic NTDs	Not included in round 1	Less than 5% (including 0%)	5-25%	Less than 5% (including 0%)	18%	21%
Prescriptions for NTD medicines	Not included in round 1	Less than 5% (including 0%)	5-25%	Less than 5% (including 0%)	26%	18%
Surgical procedures for NTDs	Not included in round 1	Less than 5% (including 0%)	5-25%	Less than 5% (including 0%)	21%	19%

Noncommunicable diseases

	Round 1 (May-Sept 2020)	Round 2 (Jan-March 2021)	Round 3 (May-Oct 2021)	Round 4 (Nov 2022-Jan 2023)	Regional comparison (Round 4)	Global comparison (Round 4)
	Some services disrupted	All services disrupted	No services disrupted	No services disrupted		
Hypertension management	5-50%	5-25%	Not included in round 3	Increase of 5% or more	31%	30%
Cardiovascular emergencies	5-50%	5-25%	Not included in round 3	Do not know	30%	21%
Diabetes and Diabetic Complications Management	5-50%	5-25%	Not included in round 3	Increase of 5% or more	31%	26%
Cancer screening	Not included in round 1	5-25%	Less than 5% (including 0%)	Increase of 5% or more	33%	32%
Cancer treatment	Less than 5% (including 0%)	5-25%	Less than 5% (including 0%)	Increase of 5% or more	30%	24%
Asthma services	5-50%	5-25%	Not included in round 3	Increase of 5% or more	34%	25%
Urgent dental care	More than 50%	5-25%	Not included in round 3	Increase of 5% or more	40%	26%

Mental, neurological, and substance use (MNS) disorders

	Round 1 (May-Sept 2020)	Round 2 (Jan-March 2021)	Round 3 (May-Oct 2021)	Round 4 (Nov 2022-Jan 2023)	Regional comparison (Round 4)	Global comparison (Round 4)
	All services disrupted	Not applicable	No services disrupted	No services disrupted		
Management of emergency of MNS manifestations	5-50%	Do not know	Less than 5% (including 0%)	Less than 5% (including 0%)	17%	9%
Psychotherapy/counselling/psychosocial interventions for MNS disorders	5-50%	Do not know	Less than 5% (including 0%)	Less than 5% (including 0%)	13%	14%
Availability of psychotropic medicines for management of MNS disorders	5-50%	Do not know	Less than 5% (including 0%)	Less than 5% (including 0%)	18%	17%
Services for children and adolescents with mental health conditions or disabilities	5-50%	Do not know	Less than 5% (including 0%)	Less than 5% (including 0%)	0%	12%
Services for older adults with mental health conditions or disabilities, including dementia	5-50%	Do not know	Less than 5% (including 0%)	Less than 5% (including 0%)	5%	13%
Neuroimaging and neurophysiology	Not included in round 1	Do not know	Less than 5% (including 0%)	Less than 5% (including 0%)	0%	9%
School mental health programme	More than 50%	Do not know	Less than 5% (including 0%)	Do not know	16%	15%
Inclusive schooling for children with special needs	Not included in round 1	Not included in round 2	Less than 5% (including 0%)	Do not know	6%	8%
Suicide prevention programme	More than 50%	Do not know	Not applicable	Do not know	6%	13%
Substance use prevention and management programs	More than 50%	Do not know	No response	Do not know	8%	11%
Alcohol prevention and management programs	No response	Not included in round 2	Do not know	Do not know	11%	13%
Critical harm reduction services	More than 50%	Do not know	Less than 5% (including 0%)	Do not know	0%	9%

Service backlog trends:

	Round 1 (May-Sept 2020)	Round 2 (Jan-March 2021)	Round 3 (Nov-Dec 2021)	Round 4 (Nov 2022-Jan 2023)	Regional comparison (Round 4)	Global comparison (Round 4)
Elective surgeries and procedures	Not included in round 1	Do not know	Do not know	Do not know	60%	47%
Appointments with specialists (outpatient)	Not included in round 1	Not included in round 2	Do not know	Increased	60%	50%
Screening, diagnosis and treatment of cancers	Not included in round 1	Not included in round 2	Do not know	Increased	57%	48%
Screening, diagnosis and treatment of NCDs	Not included in round 1	Not included in round 2	Do not know	Increased	68%	62%
Rehabilitation services	Not included in round 1	Not included in round 2	Do not know	Increased	55%	52%

% of countries with increased backlogs

Supply chain disruptions:

	Round 1 (May-Sept 2020)	Round 2 (Jan-March 2021)	Round 3 (Nov-Dec 2021)	Round 4 (Nov 2022-Jan 2023)	Regional comparison (Round 4)	Global comparison (Round 4)
	Not included in round 1	Yes	Yes	No	34%	24%
Vaccines	Not included in round 1	Not included in round 2	Not included in round 3	No response	70%	57%
Medicines (excluding oxygen)	Not included in round 1	Not included in round 2	Not included in round 3	No response	64%	77%
Medical oxygen	Not included in round 1	Not included in round 2	Not included in round 3	No response	45%	48%
Laboratory supplies	Not included in round 1	Not included in round 2	Not included in round 3	No response	70%	75%
Medical supplies	Not included in round 1	Not included in round 2	Not included in round 3	No response	82%	82%
Medical imaging accessories	Not included in round 1	Not included in round 2	Not included in round 3	No response	45%	44%
Personal protective equipment	Not included in round 1	Not included in round 2	Not included in round 3	No response	27%	27%
Disinfectant and hygiene supplies	Not included in round 1	Not included in round 2	Not included in round 3	No response	36%	29%

% of countries with disruption to in-country supply chain system

Intentional modifications to service delivery and essential public health functions

Strategic changes to service delivery platform access

	Round 1 (May-Sept 2020)	Round 2 (Jan-March 2021)	Round 3 (Nov-Dec 2021)	Round 4 (Nov 2022-Jan 2023)	Regional comparison (Round 4)	Global comparison (Round 4)
Primary care services	Not included in round 1	Not included in round 2	Functioning as normal	No response	11%	7%
Outpatient services	No response	Functioning as normal	Functioning as normal	No response	16%	11%
Inpatient services	No response	Functioning as normal	Functioning as normal	No response	14%	10%
Emergency unit services	No response	Limited	Functioning as normal	No response	5%	4%
Prehospital emergency care services	No response	Functioning as normal	Functioning as normal	No response	22%	11%
Community-based care	No response	Functioning as normal	Functioning as normal	No response	22%	16%
Mobile clinics	No response	Functioning as normal	Functioning as normal	No response	24%	20%

■ Suspended ■ Limited

Government staff responsible for EHS delivery have been reassigned/deployed to COVID-19 response

	Round 1 (May-Sept 2020)	Round 2 (Jan-March 2021)	Round 3 (Nov-Dec 2021)	Round 4 (Nov 2022-Jan 2023)	Regional comparison (Round 4)	Global comparison (Round 4)
	Not included in round 1	Not included in round 2	Not included in round 3	No response	97%	98%

% of countries who reassigned or deployed staff at any time

Mitigation strategies and recovery measures

Service delivery modifications	Round 1 (May-Sept 2020)	Round 2 (Jan-March 2021)	Round 3 (Nov-Dec 2021)	Round 4 (Nov 2022-Jan 2023)	Regional comparison (Round 4)	Global comparison (Round 4)
% of countries using strategy (with or without integration)						
Expansion of facility hours	Not included in round 1	×	×	Not used	50%	52%
Provision of home-based care where appropriate	Not included in round 1	✓	✓	Used and integrated into routine service delivery	71%	69%
Telemedicine deployment to replace in-person consults	Not included in round 1	✓	×	Used but not integrated into routine service delivery	44%	66%
Use of self-care interventions where appropriate	Not included in round 1	×	✓	Used and integrated into routine service delivery	74%	65%
Catch-up campaigns for missed appointments	Not included in round 1	×	×	Used and integrated into routine service delivery	71%	53%
Integration of several services into single visit	Not included in round 1	×	✓	Used and integrated into routine service delivery	44%	42%
Redirection of patients to alternate care sites/reorientation of referral pathways	No response	×	×	Used and integrated into routine service delivery	62%	58%
% of countries using strategy (with or without integration)						
Health worker capacities and training						
Redistribution of health worker tasks and optimization of roles	No response	×	×	Not used	65%	72%
Rapid training mechanisms and job aids for key capacities and newly distributed tasks and roles	Not included in round 1	Not included in round 2	✓	Not used	76%	80%
Recruitment of additional staff	No response	✓	×	Used and integrated into routine service delivery	74%	71%
Provision of mental health care and psychosocial support to health workers	Not included in round 1	Not included in round 2	×	Used and integrated into routine service delivery	74%	63%
Establishment of pathways for accelerated training and early certification of medical, nursing and other key staff	Not included in round 1	Not included in round 2	×	Not used	32%	40%
Paid sick leave, overtime pay, and/or hazard pay	Not included in round 1	Not included in round 2	✓	Used and integrated into routine service delivery	47%	55%
% of countries using strategy (with or without integration)						
Access to medicines and health products						
Novel approaches to renewing prescriptions and dispensing medications	Not included in round 1	Not included in round 2	✓	Not used	50%	56%
Adaptation of supply chain logistics and management processes	No response	×	✓	Used and integrated into routine service delivery	65%	71%
Procurement of surge commodities (e.g. PPE, oxygen)	Not included in round 1	Not included in round 2	✓	Used and integrated into routine service delivery	79%	75%
% of countries using strategy (with or without integration)						
Community engagement and risk communication strategies						
Community communications	No response	×	✓	Used and integrated into routine service delivery	88%	89%
Use of proactive governmental strategies to reach vulnerable groups	Not included in round 1	×	×	Not used	44%	63%
Use of existing networks or organizations (e.g. NGOs) to reach vulnerable groups	Not included in round 1	✓	✓	Not used	82%	77%
% of countries using strategy (with or without integration)						
Health financing strategies						
Removal of user fees or provision of subsidies for fees at point of use	No response	×	No response	Not used	32%	41%
Provision of cash transfers for vulnerable populations to access care	Not included in round 1	Not included in round 2	No response	Not used	38%	29%
Agreements with private health facilities to deliver essential health services supported through public funds	Not included in round 1	Not included in round 2	No response	Used and integrated into routine service delivery	53%	48%
% of countries using strategy (with or without integration)						
Systematic use of quality improvement approaches						
Improving patient flow in health facilities	Not included in round 1	Not included in round 2	Not included in round 3	Not used	62%	68%
Improving the quality of care in essential health services delivered to patients	Not included in round 1	Not included in round 2	Not included in round 3	Used and integrated into routine service delivery	76%	64%
Providing training and supportive supervision of the workforce in quality improvement	Not included in round 1	Not included in round 2	Not included in round 3	Used and integrated into routine service delivery	85%	75%
Application of improvement cycles to find solutions for priority issues and challenges in the delivery of clinical care	Not included in round 1	Not included in round 2	Not included in round 3	Not used	47%	48%

Policies, planning and investments

Policies and plans

	Round 1 (May-Sept 2020)	Round 2 (Jan-March 2021)	Round 3 (Nov-Dec 2021)	Round 4 (Nov 2022-Jan 2023)	Regional comparison (Round 4)	Global comparison (Round 4)
Government has defined EHS to be maintained during COVID-19	No response	Yes	Yes, developed	No response	50%	59%
Country developed or revised a health system recovery plan to strengthen health service resilience and preparedness for future public health emergencies	Not included in round 1	Not included in round 2	Yes	No response	39%	44%
Plan has been budgeted	Not included in round 1	Not included in round 2	Not included in round 3	No response	92%	92%
Implementation of plan has started	Not included in round 1	Not included in round 2	Not included in round 3	No response	83%	95%
Implementation hasn't started because:						
Focus is still currently on pandemic response	Not included in round 1	Not included in round 2	Not included in round 3	No response	Sample size too small to display.	Sample size too small to display
Focus is currently on socio-economic recovery	Not included in round 1	Not included in round 2	Not included in round 3	No response	Sample size too small to display	Sample size too small to display
Limited resources	Not included in round 1	Not included in round 2	Not included in round 3	No response	Sample size too small to display	Sample size too small to display
No designated authority/platform/mechanism to coordinate implementation	Not included in round 1	Not included in round 2	Not included in round 3	No response	Sample size too small to display	Sample size too small to display
A focused review was used to inform recovery plan	Not included in round 1	Not included in round 2	Not included in round 3	No response	82%	94%
Thematic areas that have been identified as central to ongoing recovery effort:						
Primary Care	Not included in round 1	Not included in round 2	Not included in round 3	-	89%	89%
Emergency risk management including preparedness	Not included in round 1	Not included in round 2	Not included in round 3	-	95%	84%
Other essential public health functions	Not included in round 1	Not included in round 2	Not included in round 3	-	42%	62%
Continuity of essential health services across health programmes and conditions	Not included in round 1	Not included in round 2	Not included in round 3	-	89%	83%
Whole of government / multisectoral engagement	Not included in round 1	Not included in round 2	Not included in round 3	-	58%	57%
Community engagement	Not included in round 1	Not included in round 2	Not included in round 3	-	92%	75%
Vulnerable and marginalized populations	Not included in round 1	Not included in round 2	Not included in round 3	-	68%	65%
Quality of care	Not included in round 1	Not included in round 2	Not included in round 3	-	76%	63%
None	Not included in round 1	Not included in round 2	Not included in round 3	-	0%	2%

Country made additional government funding and investments

	Round 1 (May-Sept 2020)	Round 2 (Jan-March 2021)	Round 3 (Nov-Dec 2021)	Round 4 (Nov 2022-Jan 2023)	Regional comparison (Round 4)	Global comparison (Round 4)
To maintain EHS during COVID-19	No response	×	✓	No response	76%	83%
To cover reductions in loss of revenue	Not included in round 1	Not included in round 2	Not included in round 3	No response	28%	56%
For longer-term recovery and/or health service resilience and preparedness	Not included in round 1	Not included in round 2	✓	No response	58%	74%
Sub-areas where investments have been made						
New facility infrastructure	Not included in round 1	Not included in round 2	✓	N/A	78%	81%
Digital health technologies and infrastructure	Not included in round 1	Not included in round 2	×	N/A	67%	87%
Health workforce capacity strengthening	Not included in round 1	Not included in round 2	×	N/A	100%	95%
Access to medicines, supplies and other health products	Not included in round 1	Not included in round 2	✓	N/A	89%	86%
Health information systems	Not included in round 1	Not included in round 2	×	N/A	83%	80%

% of countries responding yes

Country received additional external funding to support health system recovery efforts from:

	Round 1 (May-Sept 2020)	Round 2 (Jan-March 2021)	Round 3 (Nov-Dec 2021)	Round 4 (Nov 2022-Jan 2023)		
None	Not included in round 1	Not included in round 2	Not included in round 3	-	0%	15%
